Planificación de la popuesta de Aprendizaje Basado en el Servicio Comunitario

- La propuesta pedagógica del aprendizaje basado en el servicio comunitario se ajusta a las competencias a adquirir en la asignatura.
- 2. Los criterios de aprendizaje son claros y pertinentes.
- El planteamiento de la actividad de servicio comunitario planteada se ajusta a los objetivos de aprendizaje.
- Los contenidos teóricos desarrollados están en congruencia con la actividad de servicio comunitario planteada y permiten al estudiante su desarrollo con seguridad garantía de aprendizaje.
- El desarrollo de la actividad de servicio comunitario ha servido para integrar los contenidos teóricos de un modo experiencial potenciando así el aprendizaje e interiorización de los mismos.
- 6. La distribución de actividades a lo largo de la asignatura (seminarios teórico prácticos, seminarios de expertos, encuentro con agentes de salud y colaboradores comunitarios y actividad de EpS comunitaria) acompaña al estudiante de forma satisfactoria en la adquisición de conocimiento teórico y experiencial a lo largo de la propuesta de Aprendizaje Basado en el Servicio Comunitario.
- La inversión de tiempo de dedicación personal para el desarrollo de la actividad de servicio comunitario se corresponde con los créditos de la asignatura y el tiempo de dedicación no presencial (49h) contemplado en la guía de la asignatura.

☐ It suits with the course competencias (learning outcomes).

☐ Ajusted activities distribution.

Orientación y apoyo del profesorado y colaboradores comunitarios durante la experiencia de Aprendizaje Basado en el Servicio Comunitario

- La información sobre la propuesta pedagógica y sobre la actividad comunitaria a desarrollar facilitada por parte del profesor ha resultado adecuada.
- El seguimiento por parte del profesorado de facultad ha permitido un desarrollo provechoso y seguro de la actividad.
- El apoyo y soporte de los colaboradores comunitarios para favorecer un acercamiento por parte de los estudiantes a la comunidad en situación de vulnerabilidad ha resultado adecuada.
- La coordinación entre el profesorado de Facultad y los colaboradores comunitarios ha resultado adecuada y facilitadora.

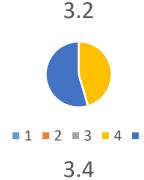

Resultados de aprendizaje

- El desarrollo de la actividad de servicio comunitario ha contribuido o puede contribuir a mi crecimiento profesional de forma significativa.
- El desarrollo de la actividad de servicio comunitario ha contribuido o puede contribuir a mi crecimiento personal de forma significativa.
- Considero que la actividad ha contribuido a que surja en mí un nuevo planteamiento del desarrollo profesional considerando nuevos roles y ámbitos de actuación en relación al cuidado de poblaciones en situación de vulnerabilidad.
- Considero que la actividad ha contribuido a que desarrolle las competencias a adquirir a través de la asignatura en un nivel avanzado.

☐ Personal growing

2.3

REFLECTIVE MEMORIES

- Cultural competence
- Awareness/deconstruction of prejudices
- Attentive listening
- Focus on strengths and empowerment
- Social engagement/agency for change
- Ethical commitment
- Commitment to a social justice exercise

SURVEYS

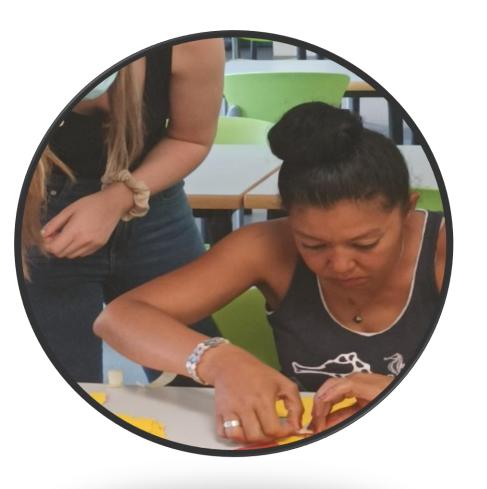

(OPEN COMENTS)

IMPROVEMENT PROPOSALS

Extend to 3 days

Active participation in the planning of the activity with users and educators.

USERS

VALERIA (20')

The activity was a "meeting of good company", with a "good atmosphere" and "good manners". I felt "calm", with the feeling that "I could talk to everyone". These activities help to "open the mind" and "also the inside (pointing to her chest)". The students "are wonderful" - what we users need is "chatting, talking, conversation, being listened to".

IRENE (40')

- Proposals for improvement:
 - Adjust the number of students to the number of users.
- Extend the intervention to 5 days.
- Objective: "sincere dialogue", "real exchange and getting to know each other".
- Activities: process of creating as a way for people to express themselves (beyond the use of words) → need "to be heard".

ENRICHMENT

- A break with the everyday.
- Motivation of users.
- Visibilisation of the reality of homeless people.
- Awakening sensitivities towards a socio-sanitary professional development environment, etc.

ELEMENTS OF IMPROVEMENT

- Work in small groups in a 1:1 ratio in different spaces and at different times.
- Planning work by consensus between users-students-shelter staff if feasible.

STAFF

LECTURERS

WEAKNESSES

Limited credits.

Tight checkerboard hours.

Excessive student load with high academic pressure.

Overloaded teaching staff (effort and dedication not quantified).

THREATS

Lack of adherence of users to this type of activities.

Mismatch in the student/user ratio.

SWAT

Motivation and involvement of students and teaching staff.

Inter-disciplinary approach (different perspectives and proposals: complementary and enriching).

Fluid communication with the host centre.

Flexibility to adapt to our needs.

Sincere welcome, collaboration and gratitude.

STRENGTHS

OPORTUNITIES

ELEMENTS OF IMPROVEMENT FOR NEXT COURSE/SBL ACTIVITY

- Adjust the timetable to meet checkerboard hours (in coherence with ECTS).
- Identify learning outcomes that can be operationalised and measured through valid questionnaires (take as a reference the Factors and Associated Variables of the SELEB Scale).
- Plan the proposal for active student participation in the planning and development of the service activity.
- Ensure a space for celebration (in terms of final reflection and closure of the learning experience).
- (In progress) To disseminate the project at a multidimensional and multiformat level: pedagogical (recounting the teaching-learning experience) and relational (making visible the result of social interaction and mutual growth).

Factors and Associated Variables of the SELEB Scale

Practical Skills	Interpersonal Skills	Citizenship	Personal Responsibility
Applying Knowledge to the "Real World"	Personal growth	Understanding cultural and racial differences	Caring relationships
Problem Analysis and Critical Thinking	Ability to work well with others	Social responsibility and citizenship skills	Being trusted by others
Social Self-Confidence	Leadership skills	Community involvement	Empathy and sensitivity to the plight of others
Conflict Resolution			
Ability to Assume Personal Responsibility	Communications skills	Ability to make a difference in the community	
Workplace Skills			
Skills in Learning from Experience			
Organizational Skills			
Connecting Theory with Practice			

Mark F. Toncar, Jane S. Reid, David J. Burns, Cynthia E. Anderson & Hieu P. Nguyen (2006) Uniform Assessment of the Benefits of Service Learning: The Development, Evaluation, and Implementation of the Seleb Scale, Journal of Marketing Theory and Practice, 14:3, 223-238, DOI: 10.2753/MTP1069-6679140304

CONCLUSIONS

- ✓ ApS allows the consolidation of specific and transversal competences (knowledge/skills/attitudes).
- ✓ ApS generates a positive impact on users/students/professionals and teaching staff, creating a therapeutic and learning community through the notion of mutual accompaniment.
- ✓ The ECTs of the subject are a limitation to work in a more longitudinal way in time and with more depth in the "encounter".
- ✓ Once the learning and social needs have been adjusted, coordination between agents becomes fluid, constructive and committed.
